

Environmental policy Hotel HL Río Playa Blanca

The hotel HL Río Playa Blanca, aware of the impact that its activities may have on the environment and considering its social responsibility in the protection of it, has implemented an Environmental Management System based on standard UNE EN ISO 14001:2015 which allows to take the necessary measures to minimize the environmental effects, if they exist, and contribute to the conservation of natural resources through a program of continuous improvement. In particular commits to:

- Promote actively, internally and externally, the protection of the environment, including contamination prevention
- Comply with the applicable environmental legislation and regulations in each case and other requirements that are set.
- Minimize energy and water consumption, waste generation and the impact of facilities and activities.
- Protect the environment and prevent and control pollution that may be caused by the development of hotel activities.
- Ensure the use of the best available technology to develop the activities of the hotel with the less impact possible.
- Establish and periodically review environmental objectives and actions to ensure continuous improvement of the Environmental Management System.
- Provide the necessary resources to ensure staff training that guarantees compliance of this policy and its participation and involvement, promoting teamwork and the necessary collaboration and interdepartmental communication, generating opportunities for personal development and professional development to contribute efficiently to the sustainable development of the company.
- Sensitize staff and customers towards greater sustainability, facilitating their participation, for the minimization of the environmental impact of the activity.
- Perform periodically audits and revisions.
- Report internally and externally about the Environmental Management System, the progress, performances and results.

The Environmental Management System of the hotel HL Río Playa Blanca is applicable to all actions, activities and services developed in the hotel infrastructure and facilities, that is: accommodation, catering and complementary leisure activities.
